

Are you looking for support to mobilise private capital for development results?

The Private Capital Mobilisation Team, based at Sida Headquarters in Stockholm, serves as an advisory resource for all operative teams. The Team can assist you in **increasing both the volume and quality of private capital mobilised for sustainable development, delivering measurable and lasting impact**. By leveraging development assistance to attract financing and resources from the private sector, the team can help you to build a pipeline of high-value, additional interventions that fit your priorities.

HOW WE CAN SUPPORT YOU

- **MPDA+:** making sense of financial flows in an economic context analysis
- **Development Offer:** supporting in choice of partner category and financing modalities, analysis of financial flows and financing gaps
- **Portfolio Development:** Analysis of market/sector, identification and design of potential contributions, scoping of potential partners and assessment of their suitability for Sida cooperation
- **Monitoring and evaluation of development results:** Ensuring development results are integrated from an early stage, to agreement negotiations to follow-up frameworks
