Fattig, maktlös och ha-
vande – en bild av en afrikansk kvinna i form av den afrikanska kontinenten.

(Från boken *An introduction to gender, law and Society in Kenya*)

"The enduring myth of the women of the South as powerless, silent and oppressed has gained a new dimension with United States-led wars in Afghanistan and Iraq being justified as liberating for women. Deniz Kandiyoti (School of Oriental and African Studies, UK) described how she felt "checkmated" by imperialist support for women's rights." Se vidare
